FIXIT SERVICES FOR BUSINESS

Win more of the work you do best.

FixIt Services is Kenya's marketplace for **verified** service companies. Clients describe the job once, verified companies send quotes, and the client picks the best one. We're inviting hand-picked businesses to get verified before we open to clients, so they're the first ones clients see.

Launch offer: your first month is FREE

What you get on FixIt

1 Jobs come to you

Clients post jobs in your services and counties. You get them by email and SMS straight away. No cold calling, no chasing.

2 Bid on the jobs you want

Send your quote, chat with the client inside FixIt, and agree the details. You choose which jobs to go after.

3 Your own business dashboard

See your matched jobs, the quotes you've sent, the jobs you've won and your bookings, all in one place.

4 Monthly performance report

Every month: quotes sent, jobs won and estimated earnings, so you can see exactly what FixIt brings you.

5 Your money is 100% yours

No commission on jobs. Clients pay you directly. You only pay one simple monthly package to stay listed.

6 The FixIt Verified badge

Clients see that your registration and documents were checked by a real person. Trust, before the first call.

7 Calendar and reminders

Accepted jobs go into your calendar with reminders, so nothing is missed on the big day.

8 A Relationship Manager

A named person at FixIt who onboards you, agrees your package and is there when you need help.

Who it's for: event companies, wedding planners, caterers, décor and tents, sound and stage, photo and video, fumigation, cleaning, facility management, security, movers, construction, landscaping, funeral services and waste management. Limited companies, registered business names, groups and co-operatives can all join.
